1st Congress on Clinical Nutrition of Bosnia and Herzegovina

WELCOME MESSAGE

Dear Colleagues,
dear Friends,

It is a pleasure and a privilege to invite you for the 1st Congress on Clinical Nutrition of Bosnia and Herzegovina which is to take place in Sarajevo from 26th to 27th of May 2011. For the first time a meeting focused on the recent developments in clinical nutrition and metabolism is organized in our country and we now look forward to welcoming you to Sarajevo, the Capital city of Bosnia and Herzegovina.

We are delighted and honoured to welcome nutrition experts from all over Europe to present the most recent data in their field of expertise. There is an integrated programme of clinical practice and education aimed to improve the immediate quality of nutritional care. Great emphasis will be placed on topics with easy application to clinical practice.

The educational programme will include the 7th Basic Course in Clinical Nutrition organized by the Adriatic Club of Clinical Nutrition (ACCN) which will be held on the 27th and 28th of May 2011. The ACCN Basic Course is organized for the second time in Sarajevo and we are happy to host young delegates from all over Europe on this event.

One live course of the ESPEN-Leonardo da VINCI Life Long Learning (LLL) programme will allow participants to the congress to improve their knowledge in Clinical Nutrition and Metabolism.

The congress is held in the Holiday Inn Hotel, which is situated in the Center of Sarajevo City, easily accessible by all transportation systems.

Located in the Sarajevo valley and surrounded by the Dinaric Alps Sarajevo is a walkable city, hemmed in within the leafy valley of the Miljacka river. Today the city is the major center of culture and economic development in Bosnia and Herzegovina. The old city, based on Baščaršija, has long been the redoubt of poets, filmmakers, authors and musicians. You will also have the great opportunity to experience nice social events as well as a centuries old tradition of hosting people of various cultures.

We are looking forward to meeting you in Sarajevo!

Nenad Vanis, MD, PhD
President of the Congress

1st Congress on Clinical Nutrition of Bosnia and Herzegovina

What is the LLL?

The Life Long Learning Programme (LLL) in Clinical Nutrition and Metabolism is a global effort of ESPEN supported by EU to provide post-graduate qualification in Clinical Nutrition and thus to improve daily practice. It was developed as the project of Leonardo da Vinci Programme by ESPEN and a number of European universities with the support of European Union.

LLL Programme in Nutrition and Metabolism (www.lllnutrition.com) is an extremely effective educational programme for medical doctors and health specialists offering training at live courses as well as on-line, by variety of innovative training methodologies and resources. LLL programme in Clinical Nutrition and Metabolism is based on an Educational curriculum offering 120 training modules (90 are already available on-line) created and peer reviewed by recognized European experts.

Credits are awarded at live courses and for on-line training. Participation in a live course on one topic provides 3 CME credits. Credit accumulation gives you the opportunity to be awarded the ESPEN Diploma in Clinical Nutrition.

LLL - Life Long Learning Programme

Thursday, May 26, 2011

08.00–12.00 **LLL Course**
Modul: Approach to Oral and Enteral Nutrition in Adult
